

Website Accessibility Tool

Does your website's ADA compliance make you a little nervous?
Are you baffled about how to even start the process?

And still feel totally overwhelmed knowing you
need to be inclusive of ALL your website visitors?

What if...

There was an innovative tool that allows ALL of your customers to effortlessly view your website?
There was a way to accomplish this in a snap without needing any super-human techie skills?

Would you finally commit to providing this level of essential inclusivity for ALL of your website visitors?
Paperkite's Website Accessibility Tool Package is an easy way to bring your website to life for ANY visitor, regardless of viewing ability or impairment.

How It Works

Using AI technology, the accessibility tool scans your website as a whole to ensure that all of your applications conform to ADA guidelines. Some of the issues that will be addressed include adjustments for screen-readers for the visually impaired, as well as keyboard navigation for people with motor impairments. An easy-to-use interface is also installed to modify the site so that ALL of your customers can navigate the info they're seeking effortlessly!

Pro Package \$499/one time setup fee + \$99/month

- For sites with **up to 1,000 pages**
- Accessibility interface installed directly on site
- Accessibility statement and certification of performance
- AI powered compliance scans and remediation performed every 24 hours to keep your site in compliance*

**Does not include pdf/video content remediation*
