

# CANAL NEW YORK ANNUAL MEETING

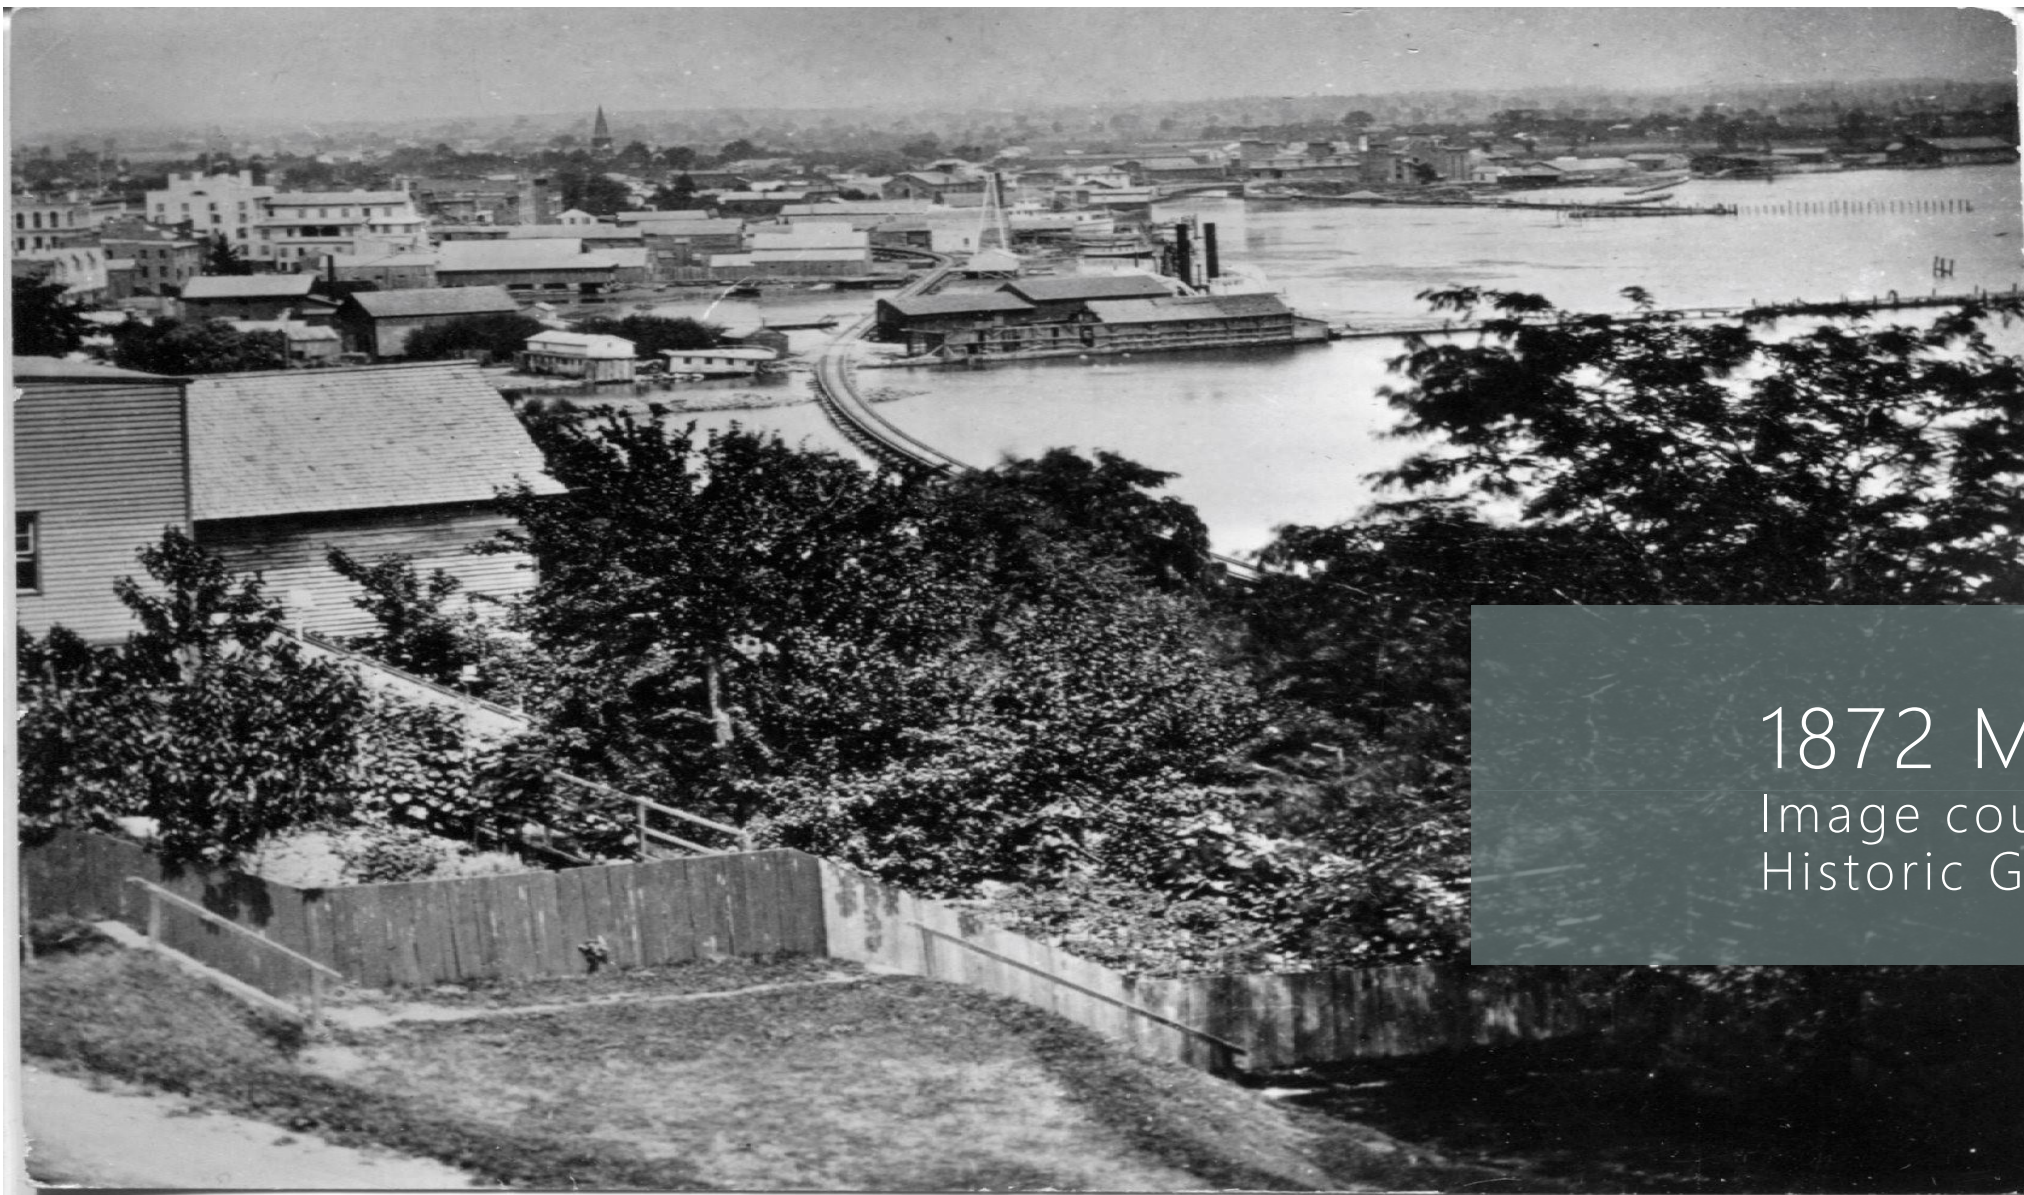

Catherine Price

## HISTORY

The Cayuga-Seneca Canal connected to the Erie Canal at Montezuma in 1828. That link to the Erie Canal connected Geneva not only to NY State but to the world. Geneva experienced tremendous economic growth as products, predominantly agriculture, made their way out of our region and returned with goods and merchandise. (image 1890s from South Main. ## GENEVA NOW

The Geneva Business Improvement District focuses where tourism intersects with economic development. One of our biggest assets is our lake and access to the New Your State Canals.
